Re:

Speedway LLC

RECEIVED DEC 10 2012 Let Ess. Response to CERCLA Section 104(e) Request for Information for the

West Troy Contaminated Aguifer Site, Troy, Ohio

Dear Ms. Adams:

Pursuant to correspondence dated October 30, 2012 from Sharon Jaffess of U.S. EPA, Speedway LLC ("Speedway") was to respond to the above-referenced Request for Information within thirty (30) days of receipt of the same. Speedway was afforded an extension of time until December 7, 2012 by Stuart P. Hersh, Associate Regional Counsel, Region 5, U.S. EPA, to respond to the abovereferenced Request for Information.

Without admission of any fault, violation, or liability, and with full reservation of any and all defenses and objections, Speedway hereby submits its responses to U.S. EPA's CERCLA Section 104(e) Request for Information regarding the West Troy Contaminated Aquifer Site located in Troy, Miami County, Ohio. Speedway's responses are based on a thorough review of the relevant records in its custody, control, or possession, and on discussions with appropriate Speedway personnel and employees. Information previously provided in Speedway's responses to the CERCLA Section 104(e) Request for Information for the East Troy Contaminated Aquifer Site in Troy, Ohio was reviewed and used to respond to this information request.

To the extent additional relevant information is discovered, Speedway will provide it to your office promptly. Similarly, if U.S. EPA possesses information or records which suggest to the Agency that Speedway may be a PRP under CERCLA with respect to the West Troy Contaminated Aquifer Site, please forward this information to me at your earliest convenience.

Very truly yours,

J. Mitchell Oliver.

Corporate Manager, Environmental

Shane A. Farolino, Esq.

SPEEDWAY LLC'S RESPONSE TO U.S. EPA'S CERCLA SECTION 104(e) REQUEST FOR INFORMATION FOR THE WEST TROY CONTAMINATED AQUIFER SITE LOCATED IN TROY, MIAMI COUNTY, OHIO

Speedway LLC ("Speedway") hereby responds to U.S. EPA's CERCLA Section 104(e) Information Request with regard to the West Troy Contaminated Aquifer Site in Troy, Ohio (the "Site").

Before responding to the individual Information Requests, Speedway hereby interposes a continuing objection to the Information Request, and the "Instructions" included with the Information Request. To the extent the letter enclosing the Instructions and the Information Requests is deemed to contain instructions to Speedway in responding to the Information Requests, Speedway objects to this letter as well. Speedway interposes this objection because the Information Requests, the Instructions and the cover letter thereto exceed U.S. EPA's information gathering authority pursuant to 42 U.S.C. Section 9604(e).

In addition, Speedway hereby reserves the right to raise objections to the Information Requests, including the Instructions and cover letter, in the future.

Subject to and without waiving this objection and reservation of rights, and without admission of any fault, violation, or liability, Speedway responds as follows to U.S. EPA's Information Request:

QUESTIONS

State the dates during which you or your company have owned, operated, or leased a facility or any part thereof located the within the area of interest at the Site as illustrated on the map in Enclosure 6, and provide copies of all documents evidencing or relating to such ownership, operation, or lease arrangement (e.g. including but not limited to purchase and sale agreements, deeds, or leases).

Marathon Oil Company (an Ohio Company) obtained title to the location that is now known as Speedway #5249 on August 20, 1969. On July 9, 1982, Marathon Petroleum Company (a Delaware corporation) merged into Marathon Oil Company, and Marathon Oil Company changed its name to Marathon Petroleum Company. Marathon Petroleum Company leased the property (formerly known as MPC Unit 2893) to its subsidiary, Emro Marketing Company (a Delaware corporation), from January 1, 1984 to December 31, 1986 and from January 1, 1987 to December 31, 1989. Marathon Petroleum Company conveyed title to the property to Emro

Marketing Company on February 21, 1989. Effective December 31, 1990, Marathon Petroleum Company (and TXO Production Corp, a Delaware corporation) merged into Marathon Oil Company, which was the surviving corporation. On December 31, 1997, Emro Marketing Company merged into Speedway SuperAmerica LLC, (a Delaware limited liability company). On June 8, 2000, Speedway SuperAmerica LLC acquired title to an adjacent property. The company name changed from Speedway SuperAmerica LLC to Speedway LLC (a Delaware limited liability company) effective February 15, 2011.

The following persons were consulted in the preparation of these answers:

Speedway LLC

The address for all of the above Speedway personnel is 500 Speedway Drive, Enon, OH 45323 and the phone number is 937-864-3000. The address for all of the above Marathon Petroleum Company LP personel is 539 South Main Street, Findlay, OH 45840 and the phone number is 419-422-2121. The address for Shane Farolino is 222 South Main Street, Suite 400, Akron, OH 44308. Mr. Farolino's phone number is 330-849-6680. The address for Doug Darrah is 8100 Snowville Rd., Brecksville, OH 44141-3478, and the phone number is 440-262-1293.

Also, please refer below to the list of persons previously consulted regarding this same facility in connection with the preparation of Speedway's Response to U.S. EPA's prior CERCLA Section 104(e) Request For Information For The East Troy Contaminated Aquifer Site Located in Troy, Miami County, Ohio.

Brian Epperson – former Speedway Remediation Manager Keith Hughes – Speedway Advanced Environmental Representative Jose L. Gonzalez, Jr. - Speedway Senior Attorney

Barbara Furman-Ashby - Speedway Paralegal

Paul Hancock - Marathon Petroleum Company LP, former Senior Group Counsel

Danny Coffey – former Speedway Compliance Manager

Keith Martin – former Speedway Environmental Permits Coordinator

Charles Besse – Speedway Auditor, Environmental Compliance

Missy Stanaway - former Speedway Environmental Compliance Specialist

Michelle Henson – former Speedway Environmental Compliance Specialist

Kelly Houghton – former Speedway Associate Commodity Manager

Brian Miller - Speedway Supervisor Consolidation and Reporting

Jean Walker – Marathon Oil Company Advanced Administrative Assistant

Ken Williams – Marathon Oil Company Tax Audit Manager

Steve Weller – Speedway Drafter

Melinda Crum - Speedway Co-op

Mark Samblanet – formerly with Cardno ATC

Shane Farolino - Rotezel & Andress

The address for all of the above Speedway personnel is 500 Speedway Drive, Enon, OH 45323 and the phone number is 937-864-3000. The address for Jean Walker, Ken Williams and Paul Hancock is 539 South Main Street, Findlay, OH 45840 and the phone number is 419-422-2121. The address for Shane Farolino is 222 South Main Street, Suite 400, Akron, OH 44308. Mr. Farolino's phone number is 330-849-6680. The address for Mark Samblanet is 10020 Brecksville Road, Brecksville, Ohio 44141, and the phone number is 440-838-7177.

Notably, none of the individuals consulted in connection with the preparation of these answers were able to provide any information regarding the Site or the contamination that is the subject of these Information Requests. Moreover, none of the individuals in question were aware of any other persons that may be able to provide responsive information or documentation.

Existing relevant business records of Speedway were examined in the preparation of the responses to these Information Requests. These records include real estate records and EPA-related correspondence.

Importantly, none of these documents (except for EPA-related correspondence and EPA generated information on its website) contain any references to the Site. Because none of these documents (except for EPA-related correspondence and EPA generated information on its website) relate to "the identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed of at [the Site] or transported to" the Site, or to "the nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from" the Site, (42 U.S.C. Section 9604 (e)), Speedway objects to this Information Request and the need to produce any documents whatsoever. Despite this objection, the documents consulted and examined by Speedway in connection with the preparation of this response are included in attachment A hereto.

The response to this Information Request, and all subsequent responses, were prepared by or in consultation with the individuals listed above with the assistance of legal counsel.

2. Did you or any other person or entity ever use, purchase, store, treat, dispose, transport or otherwise handle any material containing chlorinated solvents, including but not limited to tetrachloroethene (PCE), trichloroethene (TCE), cis-1, 2-dichloroethene (DCE), and 1, 1, 1-trichloroethane (TCA), at a facility within the boundaries of the Site? If the answer to this question is anything but an unqualified "no," with respect to each facility identify:

Yes, as explained below.

 The chemical composition, characteristics, physical state (e.g., solid, liquid) of each material;

Speedway has been able to confirm with Marathon Petroleum

Company LP that leaded gasoline was delivered to this facility in 1977

for sale to motorists. This appears to be the earliest record for such sales. In addition, Speedway sold leaded gasoline at this facility in 1987 and 1988. Speedway knows that certain Marathon leaded gasoline contained less than 0.1% organo-lead additives, and 1.2 Dichloroethane was one of the chemicals used in the organo-lead additives in such gasoline. Speedway is investigating whether the leaded gasoline delivered to and sold at Store #5249 in 1987 and 1988 was the same composition as the above-referenced Marathon leaded gasoline that contained less than 0.1% organo-lead additives, including 1.2 Dichloroethane. To the extent that Speedway is able to determine the type and composition of the leaded gasoline that it sold at Store #5249 in 1987 and 1988, including whether such gasoline contained chlorinated solvents, Speedway will supplement this Response accordingly. There are no records available to indicate whether Emro Marketing Company might have sold leaded gasoline at Store #5249 prior to 1987.

Also, as pointed out to the Agency in Speedway's Response dated November 17, 2006 to the Information Request for the East Troy Contaminated Aquifer Site, Emro Marketing Company removed one 550 gallon waste oil tank on May 18, 1993 from the facility. See the closure report submitted to EPA with the Response dated November 17, 2006. Analytical data from soil samples from that closure indicated that no chlorinated solvents were detected. Please refer to the above-referenced closure report for the analytical data from that closure project. Speedway does not know whether motor vehicles might have been repaired at the facility prior to Emro Marketing Company's operations and ownership of this facility.

In addition, during the operation of this facility, unleaded gasoline, kerosene and diesel were and are delivered to Store #5249, stored in underground storage tanks ("USTs") and sold to motorists. Propane

is sold to the general public for use as cooking fuel and is sold in containers. Spent gasoline fuel filters are stored in a DOT-approved container. Fuel filters are used in product dispensers. Approximately 2,000 gallons of tank cleaning material was disposed of in July 2000. This was generated during cleaning of the USTs prior to removing them from Speedway Store #5249 during store rebuild and construction activities. The disposal of the 2,000 gallons of tank cleaning material was a one-time occurrence. For more information, please refer to Speedway's Response dated November 17, 2006 to the Information Request for the East Troy Contaminated Aquifer Site. To the best of Speedway's knowledge, unleaded gasoline, kerosene, diesel, spent gasoline fuel filters and the tank cleaning material disposed of in July 2000 did not or do not contain chlorinated solvents.

Also, Speedway uses various cleaning products at the store described below, which, according to their respective MSDS sheets, do not contain chlorinated solvents. The products are: Spartan Sani-Tyze, Spartan Clean By Peroxy, Spartan Blue Glo, Spartan Clean On the Go Tribase Multi Purpose Cleaner, Spartan BioRenewables Restroom Cleaner, Spartan Oven & Grill Cleaner (Bulk), Spartan Sani-T-10 Plus, Spartan Clean on the Go NABC Concentrate (1), Spartan Lite'N Foamy Citrus Fresh, and Spartan Biorenewables Glass Cleaner. The physical state of these products could be liquid or granular.

b. Who supplied the material;

Unleaded gasoline, kerosene and diesel were or are delivered via transport from a Marathon Petroleum Company LP Terminal.

 How, when, and where the material was used, purchased, generated, stored, treated, transported, disposed of or otherwise handled;

Gasoline and diesel are sold to the general public for use in fueling vehicles, and kerosene is sold to the general public for a variety of purposes and are purchased from Marathon Petroleum Company LP. The gasoline, kerosene and diesel are stored in USTs. Propane is sold to the general public for use as cooking fuel and is sold in containers. Fuel filters are used to filter fuel as it is pumped through the dispensers at the facility. Over time, the filters become clogged and need to be replaced with fresh filters. The used filters are then stored in DOT-approved containers on-site pending disposal at an appropriate facility. Fuel filters are purchased from Eby-Brown Company and are stocked in the store prior to use. Cleaning supplies are purchased from Eby-Brown Company on an as-needed basis, and are also stocked at the store prior to use.

d. The quantity of such materials used, purchased, generated, stored, treated, transported, disposed of or otherwise handled;

Currently, this facility can store up to 5,400 gallons of diesel, 6,000 gallons of kerosene and 27,000 gallons of gasoline. A DOT-approved container is located on-site to store spent fuel filters pending disposal. The amount of cleaning supplies varies depending on usage.

e. All supervisory personnel for areas where chlorinated solvents were identified above. For all persons identified, indicate the years during which they were a supervisor and, to the best of your knowledge and belief, their duties and responsibilities.

See Speedway's response to 2a above. Speedway is investigating whether the leaded gasoline delivered to and sold at Store #5249 in 1987 and 1988 was the same composition as certain Marathon gasoline that contained a de minimis concentration of one chlorinated solvent. To the extent that Speedway is able to determine the type and composition of the leaded gasoline that it sold at Store #5249 in 1987 and 1988, including whether such gasoline contained chlorinated solvents, Speedway will supplement this Response accordingly.

- 3. Identify all past and present solid waste management units (e.g., waste piles, landfills, surface impoundments, waste lagoons, waste ponds or pits, tanks, or container storage areas,) at each facility you or your company have owned, operated, or leased within the area of interest at the Site. For each such solid waste management unit, provide the following information:
 - a. A map that shows the unit's boundaries and the location of all known solid
 waste management units, whether currently in operation or not. This map
 should be drawn to scale, if possible, and clearly indicate the location and size
 of all past and present units;

See the attached site plan.

b. The type of unit (e.g., storage area, landfill, or waste pile) and the dimensions of the unit;

A dumpster is used for solid waste management and a 55-gallon drum is used to store used fuel filters at Store #5249.

c. The dates that the unit was in use;

It is Speedway's belief that a dumpster has been used at Store #5249 since the store has been in operation. The 55-gallon drum has been used since required by statute.

d. The purpose and past usage of the unit (e.g., storage or spill containment);

The dumpster is used to dispose of solid waste and the 55-gallon drum is used to store used fuel filters.

e. The quantity and types of materials (hazardous substances and any other chemicals) located in the unit;

The dumpster holds varying types and quantities of solid waste, and the drum holds up to a 55-gallon quantity of fuel filters.

f. The construction (materials, composition), volume, size, dates of cleaning, and condition of the unit; and

The dumpster is a steel commercial dumpster and the drum is a 55-gallon steel DOT specification drum.

g. If unit is no longer in use, describe how was unit was closed and what actions were taken to prevent or address potential or actual releases of waste constituents from the unit.

Both the dumpster and the drum are still used at Store #5249.

- 4. Identify all leaks, spills, or releases into the environment of any chlorinated solvents or materials containing chlorinated solvents that have occurred at or from any facility you or your company have owned, operated, or leased within the boundaries of the Site. In addition, identify:
 - a. When, where, and how such leaks, spills or releases occurred;

- b. The amount of each leak, spill or release;
- c. Activities undertaken in response to each such leak, spill or release, including the notification of any agencies or governmental units;
- d. Investigations of the circumstances, nature, extent or location of each leak, spill or release, including the results of any soil, water (ground and surface), or air testing undertaken; and
- e. All persons with information relating to these leaks, spill or releases.

To the best of Speedway's knowledge, no leaks, spills or releases of materials containing chlorinated solvents have occurred from Speedway Store #5249 to the Site.

5. Provide copies of all local, state, and federal environmental permits ever granted for any facility (or any part thereof) you or your company have owned, operated, or leased within the boundaries of the Site (e.g., RCRA permits or NPDES permits).

Attached are the permits that Speedway has been able to locate with respect to Speedway Store #5249.

6. Identify any persons or entities, other than those responding to this information request, that may have information about the history, use, purchase, storage, treatment, disposal, transportation or handling of any materials containing chlorinated solvents at any facilities in the area of interest at the Site.

See the responses to questions 2a and 2e above.

7. To the extent you believe that another person, including any previous property owner, is responsible for any leaks, spills or releases into the environment of any chlorinated solvents or materials containing chlorinated solvents at or from any facility you or your

company have owned, operated, or leased within the area of interest at the Site, identify:

Unknown

a. The name and address of that person or persons;

Unknown

b. When, where, and how such leaks, spills or releases occurred;

Unknown

c. The amount of each leak, spill or release; and

Unknown

d. The detailed basis for your belief that each such person is responsible for leaks, spills or releases, including any transactional documents, reports, or other documentation supporting your belief.

Unknown

DESCRIPTION APPROVED

MAN COUNTY ENGINEER DATE G- 9-

(OPTION TO PURCHASE: SPECIAL - Rev. 1/14/98) IL:\UASEFRM\OPTOPUR

OPTION TO PURCHASE

KNOW ALL MEN BY THESE PRESENTS:

That, in consideration of Ten and no/100 Dollars (\$10.00) and other good and valuable consideration, to be held by <u>Seller</u> ,
the receipt and sufficiency of which is hereby acknowledged, Parker A. Behm
, hereinafter called Seller, hereby grants to Speedway
SuperAmerica LLC , a Delaware limited liability company of
Enon , Ohio hereinafter called Buyer, the exclusive option to purchase the following
described real estate and improvements located thereon, situated in the City of Troy,
County of Miami, and State of Ohio, known and described as follows:
The subject property is adjacent to Buyer's existing property and will contain
approximately +(-) 10,000 SF. The premises is cross-hatched (/////) on
Exhibit A, which is attached hereto and incorporated herein as Exhibit A.
When completed by and at the expense of a third party (the City of Troy), the
exact legal description of the subject premises shall be attached to and become
a part of this agreement, as well as the various easement descriptions.
Said premises have a frontage of at least 90 net feet on North Market
and of at least 100 net feet on Foss Way , City of Troy
In the event that the above legal description does not provide the stated net frontages, the description
shall be amended by the parties to include sufficient additional real estate to provide the stated
frontages; and if Seller is unable to provide the stated net frontages, Buyer shall have the right to cancel
and terminate this Option, in which event all earnest money paid shall be refunded to Buyer. The
above stated legal description may be corrected by Buyer, if required, to properly describe the subject
property as identified by the herein stated net foot frontages and to conform with the survey of subject
property to be made by a registered land surveyor hired by Buyer as hereinafter authorized.
This option shall be good until midnight, the 31st day of December,
2003 , and shall be exercisable by Buyer by written notice or telegram, either delivered personally
or mailed, at or before midnight of said day, to Parker A. Behm
at 628 South Crawford Street, Troy, OH 45373
<u>Telephone (937-335-4444)</u> . Depositing such notice in the U.S. Mails, postage prepaid,
or delivering such notice to Western Union or to an express delivery service, costs prepaid, shall be
deemed to be sufficient delivery. If this Option is not exercised as aforesaid, it shall thereupon
terminate. All notices hereunder shall be sent in the manner above set forth and to Seller at the above
address and to Buyer at 539 South Main St., Rm. 1604, Findlay, OH 45840.
The purchase price for said premises shall be the sum of (See Addendum #7)
The amount of the consideration paid for this Option which exceeds Ten Dollars (\$10.00) shall
constitute earnest money and shall apply against the purchase price. In the event Buyer does not
exercise this Option, Seller may retain all sums paid at the time of the execution hereof; provided,
however, if this Option is not exercised or the purchase is not consummated because of the conditions
or obligations set forth in Paragraphs 1-7 below, then the consideration paid for this Option shall be
returned forthwith to Buyer.

Buyer contemplates using said premises as an automobile service station and/or restaurant and/or motel and/or automated or other type car wash and/or convenience food store, including the sale of

allowed under the applicable zoning code. By the execution of this Option Seller hereby authorizes Buyer, at Buyer's expense to apply for and attempt to secure such zoning classification of the property or special use permit for the property which will permit Buyer to construct and operate upon the premises a building and facilities for the above stated use. Seller authorizes Buyer, at Buyer's expense, to apply for and attempt to secure sign permits, consents of property owners, curb cut permits, sewer or septic permits, and such building and other governmental permits as may be necessary to permit Buyer to construct and operate upon the premises a building, together with all equipment, signs, appurtenances and driveways in accordance with such design and specifications as Buyer shall in its sole discretion determine to be desirable for its use.

Such applications may be made in Buyer's name or Seller's name, or both, as may be appropriate, and Seller agrees to cooperate fully and in good faith in this regard.

In the event said permits, zoning classification, or special use permit are not forthcoming to Buyer's satisfaction or are denied by the persons or agencies having control thereof, then Buyer shall have the right but not the obligation, to take such further action to secure said permits, zoning classification, or special use permits as it may elect; provided only that at every stage thereof Buyer shall act promptly and proceed with reasonable diligence.

Seller authorizes Buyer to enter upon the premises at any time to survey the premises, to determine the exact dimensions and legal description thereof, and to make soil borings to determine the suitability of the land for the uses intended and to make tests on the underground storage tanks and related piping for leaks and tests of the soil to ascertain that the subsoil does not contain levels of concentrated hydrocarbons or other contaminants that are unacceptable to Buyer in its sole judgment.

Seller authorizes Buyer to promptly determine whether title to the premises is good and merchantable, or otherwise acceptable to Buyer. In this connection, Buyer shall have the right to require title insurance in an amount equal to the above purchase price. All costs thereof, including title search fees, shall be paid by Buyer. In the event title is determined not to be good and merchantable or is otherwise not acceptable to Buyer, Seller shall be so notified and shall then immediately take such action as may be necessary to cure title defects (including plat and deed restrictions) within sixty (60) days from receipt of said notice, at Seller's expense, and notify Buyer when such is completed. Seller shall, at its expense, prepare, obtain all necessary approval of, and record any plat of division or subdivision required by law or ordinance.

In the event Buyer exercises this Option, the following terms and conditions shall apply:

- 1. This Option shall remain in full force and effect throughout the actions and proceedings described above; but unless said permits, zoning classification, or special use permit are obtained and are effective, valid and subsisting as of the date of closing, Buyer shall not be obliged to close this purchase and shall have the right to cancel this Option.
- 2. Buyer shall be obligated to complete this transaction only in the event each of the following items occur, and if so, then this purchase shall be closed within thirty (30) days after whichever of the following occurs last in point of time: (a) title is determined to be good and merchantable or otherwise acceptable to Buyer; (b) all of said permits above referred to are secured and are valid and subsisting as of the date of closing; (c) the survey described above, tank testing, soil testing and soil boring test reports have been received and made to Buyer's satisfaction; (d) the receipt by Buyer of an executed Disclosure Document pursuant to Illinois, Indiana or Michigan law, if applicable; (e) the fulfillment to Buyer's satisfaction of the conditions and warranties contained in Paragraph 8 of this option; (f) the exercise of this Option by Buyer, provided, however, that Buyer may waive any of the foregoing conditions and proceed to complete and close the purchase

accordingly. If any of the ft going conditions is not met and is not it led by Buyer, Buyer shall have the right to cancel or to elect not to exercise this Option and the earnest money shall thereupon be returned to Buyer.

- 3. At the time of closing, Buyer shall pay to Seller the balance of purchase price due, and Seller shall then:
- (a) deliver to Buyer a general warranty deed, free and clear of all liens, encumbrances and restrictions whatsoever, including assessments:
- (b) furnish Buyer assurance that all taxes which are a lien against said premises are paid, prorated to the date of transfer of title to Buyer, calculated upon reasonable and equitable estimates where necessary;
- (c) execute an affidavit to be supplied by Buyer that there are no liens upon the premises nor outstanding orders or unpaid bills for goods, labor or materials which may become a lien upon the premises;
 - (d) reimburse Buyer for all costs of title insurance incurred by Buyer as provided herein;
- (e) deliver to Buyer any federal and state title conveyance fee and any other transfer taxes or other taxes on the conveyance; and
- (f) execute and deliver to Buyer any affidavit or other document required by law to entitle the deed to Buyer to be recorded or otherwise required by law for any reason.
- (g) execute and deliver to Buyer a Certification pursuant to Section 1445 of the Internal Revenue Code that Seller is not a foreign corporation, foreign partnership, foreign trust or foreign estate.
 - 4. Possession of said premises shall be delivered to Buyer on date of closing.
- 5. Buyer has secured or is in the process of securing a similar Option to Purchase from covering apparently adjoining premises.
- 6. During the term of this Option and after the exercise thereof by Buyer, Seller agrees that it will not in any manner sell, alienate, mortgage, or encumber the premises as described on Page 1 of this Agreement nor file a voluntary petition in bankruptcy prior to the date possession of said premises is surrendered and delivered to Buyer. Seller further agrees that it will not take any action to request or effect annexation of the premises to any municipality or to request or petition for any change of the zoning classification of the premises which existed at the date hereof unless Buyer gives prior written consent to such action.
- 7. It is contemplated that this transaction, at the option of either party, may be concluded through an escrow agent and, in such event, all funds and documents pertaining to this transaction shall be placed in escrow on or before the closing date, with each party sharing equally the escrow fee, provided, however, Seller's share of the escrow fee shall not exceed Fifty (\$50.00) Dollars. It is further understood and agreed that subject property may be placed in escrow as part of a three party like kind exchange transaction pursuant to Section 1031 of the Internal Revenue Code.
- 8. Buyer must be able to determine to its satisfaction that: (a) the Real Estate is not in any way contaminated with any hazardous substance; (b) the Real Estate is not subject to any federal, state, or local "superfund" lien, proceedings, claim, liability, or action, or the threat or likelihood thereof,

for the clean-up, removal, posal or remediation of any such hazar substance from the Real Estate or from any other Real property owned or controlled by Seller or in which Seller has an interest, legal or equitable; (c) there is no asbestos on the Real Estate; and (d) there is currently no underground or aboveground storage tank on the Real Estate, and there has never been any underground or aboveground tank on the Real Estate.

Witness:	(Seller)

ADDENDUM

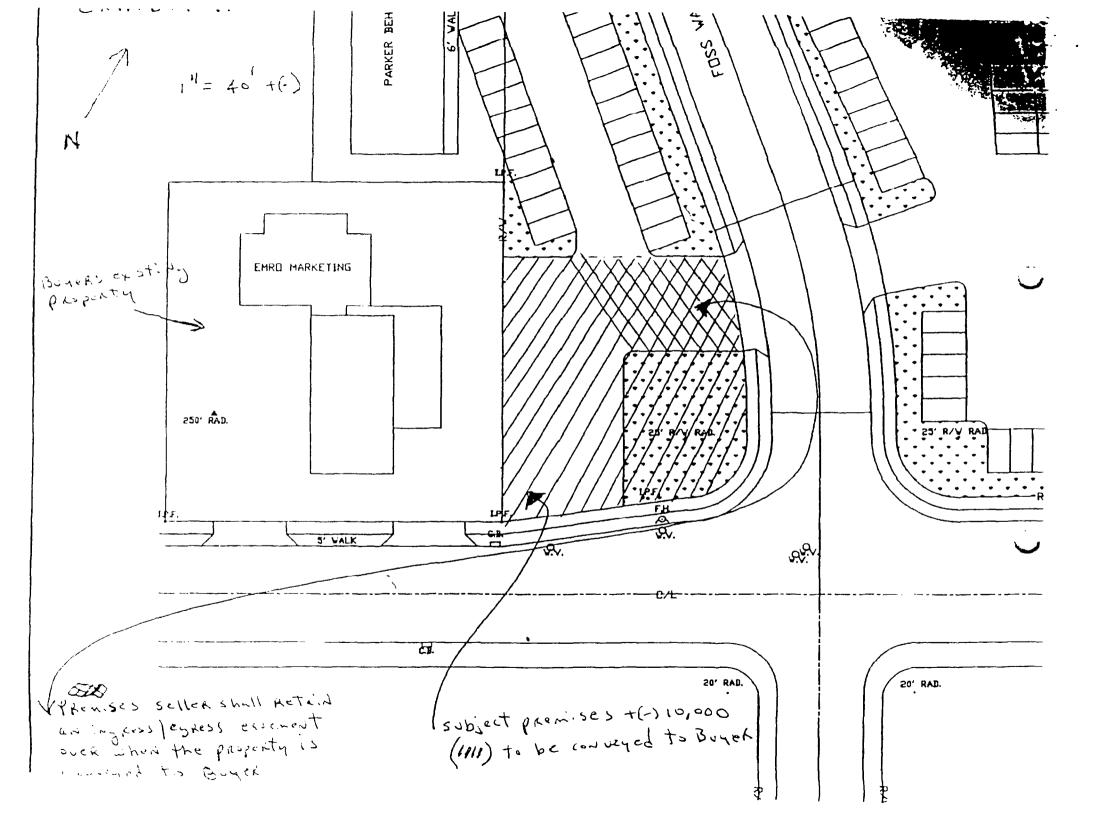

- Buyer and Seller acknowledge that Buyer currently owns property at the immediate southwest corner of North Market and Foss Way in Troy. Seller owns property west of Buyer's property and north of Foss Way.
- 2. Buyer, Seller, and the City of Troy all desire to relocate a portion of Foss Way in a northerly direction so that it will then be in straight alignment with another road east of the signalized intersection. The City of Troy has a combination of municipal funds and grants to pay the cost of the aforesaid road improvements. To facilitate this project, Seller and the City of Troy will be involved in a land exchange to provide right-of-way for the relocated Foss Way and the current road will be abandoned and that land conveyed to Seller. The land covered under this option agreement will be the area south of the relocated Floss Way to the point where the land adjoins Buyer's existing property, excepting therefrom the +(-) 30' western section of said property, as illustrated on Exhibit A.
- 3. This option shall only become effective if and when the above land exchange occurs and the relocated road is constructed.
- 4. To induce Buyer to cooperate with the entire project, Seller is granting to Buyer a long term option on the subject premises.
- 5. In addition to Buyer being granted an option to purchase the subject premises, immediately upon completion of the land exchange and road project, Buyer is also hereby granted an exclusive use License Agreement over the subject premises and may exclusively use the premises for its sole benefit in whatever manner it desires, but subject to Seller's reservation of the ingress/egress easement as outlined in #6 below. This License Agreement shall remain in effect during the length of the option term through 12-31-2003, and expire when Buyer purchases the property or the option expires, whichever is applicable. During the period this License Agreement remains in effect, it shall be Buyer's sole cost and responsibility to maintain the subject premises in a condition which can be used by both Buyer and Seller for their intended, respective uses.
- Ouring the License Agreement period referenced in Paragraph #5, Seller shall retain a non-exclusive ingress/egress easement over the area referenced in Exhibit A to facilitate access to Seller's west adjoining property. If Buyer exercises the option and purchases the premises, in the deed of conveyance, Seller shall retain a perpetual ingress/egress easement over this identical area.
- 7. If Buyer exercises the option to purchase, the purchase price shall be determined as follows. Buyer and Seller shall have a period of 30 days after Buyer exercises the option to negotiate the price. If Buyer and Seller are unable to agree, then Buyer and Seller will each secure an appraiser, at their own expense, to independently appraise the property.

The 2 appraisers shall have a period of 60 days to complete their appraisals, and in the event the 2 appraisals are within 10% of each other, the option price shall be the average of the 2 appraisals.

If the 2 appraisals vary by more than 10%, a third appraiser shall be employed (at an expense to be shared between Buyer and Seller), and the third appraiser shall be mutually selected by the 2 original appraisers. The third appraiser shall review the first 2 appraisals, as well as make their own appraisal. The final purchase price shall be determined at the sole discretion of the third appraiser, but shall be no lower than the lowest appraisal and no higher than the highest appraisal.

All appraisers must be MAI Certified in the State of Ohio and empowered to conduct appraisals in the County where the property is located. The premises shall be appraised as if the land was vacant, not improved, and being subject to all existing easements, including the ingress/egress easement to be retained by Seller.

- 8. If Buyer does not exercise the purchase option, at the end of the option period, Buyer's License Agreement covering the premises shall expire and the property shall revert to Seller, but Buyer shall be granted a perpetual ingress/egress easement (subject to the conditions below) over the westerly +(-) 40' x 100' area of the subject premises, the purpose of which is to maintain continued access to Foss Way. In consideration of allowing this easement, if Buyer does not exercise the option to purchase, beginning January 2004, and each January thereafter, Buyer shall pay Seller \$2,000 annually for the use of the easement area. Buyer shall also, at its sole cost and expense, maintain the easement area for as long as the easement remains in effect. If applicable, at the appropriate time, a formal easement will be executed between the parties and recorded. If Buyer ever discontinues the operation of its gasoline station and convenient store from their existing premises, the easement shall then expire and the annual use fee shall terminate.
- 9. At the option of either party, the Agreement, or a Memorandum thereof, may be recorded.

LEASE AND AGREEMENT

THIS AGREEMENT made this 1st day of January, 1987, between MARATHON PETROLEUM COMPANY, an Ohio corporation, of 539 South Main Street, Findlay, Ohio 45840 (called "LESSOR") and EMRO MARKETING COMPANY, a Delaware corporation, of 2525 North Limestone Street, Springfield, Ohio 45503 (called "LESSEE"); WITNESSETH:

1. GRANT OF LEASE:

In consideration of the covenants contained herein and the rights and obligations of the parties hereto, LESSOR does herein lease, let and demise unto LESSEE those parcels of real estate identified in Exhibit "A" attached hereto and incorporated herein by reference; it being agreed that such Exhibit "A" may be changed from time to time by additions thereto or deletions therefrom with rent adjustments made accordingly. Properties may hereinafter be referred to as "Parcel", "Parcels" or "Leased Premises" as context requires.

2. TERM:

LESSEE shall have and hold the demised parcels together with all appurtenances, fixtures and personal property thereon owned by LESSOR (with the exception of all overhead greasing equipment and LESSOR'S advertising signs, brand identification and insignia) for a term commencing on the date specified in Exhibit "A" and ending on December 31, 1989. Any holdover shall be on a month-to-month basis.

3. USE:

The demised premises shall be used for petroleum sales purposes and other incidental business purposes related to such operation. LESSEE agrees not to use or permit the Leased Premises to be used for any unlawful purpose, nor the conduct of any unlawful activity thereon, nor the consumption thereupon of any alcoholic beverages; provided,

however, LESSEE shall be permitted to make sales of alcoholic beverages from the Leased Premises in accord with permissive governmental regulation and prior written approval of LESSOR and, likewise, will be permitted to sell governmental lottery tickets with prior written approval of LESSOR.

4. RENT:

LESSEE agrees to pay LESSOR, as rent, the sum of

Two Hundred Twenty Thousand Two Hundred Seventy and OC/100 Dollars

(\$\frac{\\$220,270.00-----}{}\) per month, in advance, said rental to be due and payable on the first day of each month during the term of this Lease or any renewal or extension thereof.

Rent will be automatically adjusted in accord with changes in Exhibit "A".

5. CANCELLATION RIGHTS:

- A. LESSEE may terminate this Lease as to any Parcel effective the first day of the month following sixty (60) days' written notice to LESSOR of intent to cancel.
- B. In the event LESSOR loses its leasehold rights in any property demised herein for any reason whatsoever, LESSOR shall have the right to cancel this Lease as to the affected Parcel on ten (10) days' written notice.

6. MAINTENANCE AND REPAIRS:

LESSEE shall, at its own expense, maintain and make all repairs and replacements, to each Parcel, including appurtenances, fixtures and personal property owned by LESSOR as may be necessary to keep the premises in a state of good condition and repair.

LESSEE further agrees to keep each Parcel in a clean, safe, orderly and sanitary condition, which shall include keeping abutting sidewalks and driveways neat and clean and promptly removing all snow, ice, debris, or other material which might be a hazard to the general public.

8 - 0 11 - 453

7. REMODELING:

LESSEE shall have the right to remodel any of the buildings which are the subject of this Lease, but only on the express condition that LESSEE has first submitted to LESSOR the plans and specifications for such remodeling and has obtained LESSOR'S written consent and approval for said plans and specifications.

8. TAXES AND ASSESSMENTS:

LESSEE will pay directly or reimburse LESSOR for real estate taxes and assessments levied against the demised premises, the leasehold estate created hereby, and the improvements, fixtures, equipment and personal property situate thereon. All taxes and assessments shall be prorated as of the date of possession of each unit. The proration shall be on the basis of the actual tax bill.

9. INSURANCE:

LESSEE shall carry insurance coverage of its choice, but shall be required to provide such insurance coverage as any third parties may legally require of LESSOR under a lease from such third party covering any Parcel leased herein.

10. CONDEMNATION:

In the event of condemnation making premises unfit for LESSEE'S use, LESSEE may cancel this Lease at the time the condemnation becomes operative. All condemnation awards shall belong exclusively to LESSOR; however, LESSEE may recover for cost of leasehold improvements and fixture removal award, if any.

11. DESTRUCTION OF BUILDINGS:

In the event of partial or total destruction of the building, not caused by negligence of LESSEE, its agents or employees, the rent attributable to the Parcel affected shall abate until the facilities thereon are restored or the affected Parcel, at LESSOR'S option, is deleted from the Lease.

8 - 0 H - 453

12. REMOVAL OF LESSEE'S PROPERTY:

Within ten (10) days of Lease termination, LESSEE agrees to complete the removal of its fixtures and equipment from the Parcel involved, further agreeing to deliver possession of premises and LESSOR'S equipment to LESSOR in as good condition as when leased, ordinary wear and tear excepted.

13. INDEMNITY:

LESSEE agrees to indemnify LESSOR against any expense, loss of liability paid, suffered or incurred as a result of any breach by LESSEE, its agents or employees of any convenant or condition of this Lease, or arising from or in connection with LESSEE'S use or occupancy of the demised premises, or the carelessness, negligence or improper conduct of LESSEE, its agents, employees, visitors or licensees.

14. RULES AND REGULATIONS:

LESSEE, at its expense, agrees to comply with all Federal, State and Municipal laws, orders, rules and regulations applicable to the demised premises and operation thereof.

15. LICENSE FEES:

Any fees, taxes or charges imposed against business conducted by LESSEE shall be paid by LESSEE.

16. DEFAULT:

A. If any rent reserved by LESSOR shall remain unpaid by the tenth day of the month, or if LESSEE shall be in default of any provision of this Lease for more than fifteen (15) days after LESSOR has delivered written notice to LESSEE advising of the default, LESSOR may elect to cancel the Lease as to the affected Parcel, in which event rent shall be brought current and the property delivered to LESSOR in condition as called for by this Lease.

能和年和建設的作品。這

8 - 0 H - 453

It shall be a default of LESSEE to be adjudged bankrupt or to make assignment for the benefit of creditors, or to become insolvent.

- B. Should LESSOR be in default with respect to fulfillment of Lease obligations, LESSEE may give LESSOR notice of default and LESSOR shall have fifteen (15) days after receipt of notice to cure the default. Upon failure to cure default, LESSEE may, as its sole remedy, elect to cancel this Lease as to the affected Parcel.
- C. In the event LESSOR or LESSEE waives default by the other party, such waiver shall not be construed or deemed to be a continuing waiver of any subsequent breach or default on the part of either party.
- D. All notices and demands shall be in writing and shall be mailed, certified or registered, to the addresses shown first above.

17. ASSIGNMENT OR SUBLEASE:

LESSEE convenants and agrees that it will not sublet all, or any portion of the Leased Premises, nor assign its interest, or any part of its interest, under this Lease as to the same without first obtaining written consent of LESSOR provided, however, that LESSOR does herein give its consent to subleasing for use purposes defined in Paragraph 3 herein.

18. SHORT FORM LEASE:

If requested by LESSOR or LESSEE, a short form Memorandum of Lease shall be executed and it is agreed that the short form Lease may be placed of public record.

19. INTERPRETATION:

- A. This Lease is to be governed by the Laws of Ohio.
- B. This Lease is not to be construed as establishing any rights, in the nature of third party beneficiary rights or otherwise, in any lessor of any lease to which LESSOR is a party or to any other third party.

路 10 10 10 七十七十

8 - 0 H - 453

- C. This Lease is to be construed as a "net-net" lease designed to generate a net return to LESSOR of the full rents called for herein, without deductions, costs or expenses, or capital outlays of any kind.
- 20. This Lease and Agreement shall be binding upon and inure to the benefit of the parties, their respective successors and assigns.

IN WITNESS WHEREOF, the parties have caused this Lease to be executed as of the day and year first above written.

LEASE AND AGREEMENT

THIS AGREEMENT made this 1st day of January, 1984, between MARATHON PETROLEUM COMPANY, an Ohio corporation, of 539 South Main Street, Findlay, Ohio 45840 (called "LESSOR") and EMRO MARKETING COMPANY, a Delaware corporation of 2525 North Limestone Street, Springfield, Ohio 45503 (called "LESSEE"):

WITNESSETH:

1. GRANT OF LEASE:

In consideration of the covenants contained herein and the rights and obligations of the parties hereto, LESSOR does herein lease, let and demise unto LESSEE those parcels of real estate identified in Exhibit "A" attached hereto and incorporated herein by reference; it being agreed that such Exhibit "A" may be changed from time to time by additions thereto or deletions therefrom with rent adjustments made accordingly. Properties may hereinafter be referred to as "Parcel", "Parcels" or "Leased Premises" as context requires.

2. TERM:

LESSEE shall nave and hold the demised parcels together with all appurtenances, buildings, fixtures and personal property thereon (with the exception of all overhead greasing equipment and LESSOR's advertising signs, brand identification and insignia) for a term commencing on the date specified in Exhibit "A" and ending on December 31, 1986. Any holdover shall be on a month-to-month basis.

3. <u>USE</u>:

The demised premises shall be used for petroleum sales purposes and other incidental business purposes related to such operation. LESSEE agrees not to use or permit the Leased Premises to be used for any unlawful purpose, nor the conduct of any unlawful activity

thereon, nor the consumption thereupon of any alcoholic beverages; provided, however, LESSEE shall be permitted to make sales of alcoholic beverages from the Leased Premises in accord with permissive governmental regulation and prior written approval of LESSOR and, likewise, will be permitted to sell governmental lottery tickets with prior written approval of LESSOR.

4. RENT:

LESSEE agrees to pay LESSOR, as rent, the sum of Three Hundred Fourteen Thousand One Hundred Eight-Four (\$314,184) per month, in advance, said rental to be due and payable on the first day of each month during the term of this Lease or any renewal or extension thereof. Rent will be automatically adjusted in accord with changes in Exhibit "A".

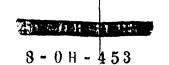

5. CANCELLATION RIGHTS:

- A. LESSEE may terminate this Lease as to any Parcel effective the first day of the month following sixty (60) days' written notice to LESSOR of intent to cancel.
- B. In the event LESSOR loses its leasehold rights in any property demised herein for any reason whatsoever, LESSOR shall have the right to cancel this Lease as to the affected Parcel on ten (10) days' written notice.

6. MAINTENANCE AND REPAIRS:

LESSEE shall, at its own expense, maintain and make all repairs and replacements, to each Parcel, including appurtenances, buildings, fixtures and personal property as may be necessary to keep the premises in a state of good condition and repair.

LESSEE further agrees to keep each Parcel in a clean, safe, orderly and sanitary condition, which shall include keeping abutting sidewalks and driveways neat and

clean and promptly removing all snow, ice, debris or other material which might be a hazard to the general public.

7. REMODELING:

LESSEE shall have the right to remodel any of the buildings which are the subject of this Lease, but only on the express condition that LESSEE has first submitted to LESSOR the plans and specifications for such remodeling and has obtained LESSOR's written consent and approval for said plans and specifications.

8. TAXES AND ASSESSMENTS:

LESSEE will pay directly or reimburse LESSOR for real estate taxes and assessments levied against the demised premises, the leasehold estate created hereby, and the improvements, fixtures, equipment and personal property situate thereon. All taxes and assessments shall be prorated as of the date of possession of each unit. The proration shall be on the basis of the actual tax bill.

9. INSURANCE:

LESSEE shall carry insurance coverage of its choice, but shall be required to provide such insurance coverage as any third parties may legally require of LESSOR under a lease from such third party covering any Parcel leased herein.

10. CONDEMNATION:

In the event of condemnation making premises unfit for LESSEE's use, LESSEE may cancel this Lease at the time the take becomes operative. All condemnation awards shall belong exclusively to LESSOR; however, LESSEE may recover for cost of leasehold improvements and fixture removal award, if any.

11. DESTRUCTION OF BUILDINGS:

In the event of partial or total destruction of the building, not caused by negligence of LESSEE, its agents

8 - 0 H - 453

or employees, the rent attributable to the Parcel affected shall abate until the facilities thereon are restored or the affected Parcel, at LESSOR's option, is deleted from the Lease.

12. REMOVAL OF LESSEE'S PROPERTY:

within ten (10) days of Lease termination, LESSEE agrees to complete the removal of its fixtures and equipment from the Parcel involved, further agreeing to deliver possession of premises and LESSOR's equipment to LESSOR in as good condition as when leased, ordinary wear and tear excepted.

13. INDEMNITY:

LESSEE agrees to indemnify LESSOR against any expense, loss or liability paid, suffered or incurred as a result of any breach by LESSEE, its agents or employees of any covenant or condition of this Lease, or arising from or in connection with LESSEE's use or occupancy of the demised premises, or the carelessness, negligence or improper conduct of LESSEE, its agents, employees, visitors or licensees.

14. RULES AND REGULATIONS:

LESSEE, at its expense, agrees to comply with all Federal, State and Municipal laws, orders, rules and regulations applicable to the demised premises and operation thereof.

15. LICENSE FEES:

Any fees, taxes or charges imposed against business conducted by LESSEE shall be paid by LESSEE.

16. DEFAULT:

A. If any rent reserved by LESSOR shall remain unpaid by the tenth day of the month, or if LESSEE shall be in default of any provision of this Lease for more than fifteen (15) days after LESSOR has delivered written notice to LESSEE advising of the default, LESSOR may elect to cancel the Lease as to the

affected Parcel, in which event rent shall be brought current and the property delivered to LESSOR in condition as called for by this Lease.

It shall be a default of LESSEE to be adjudged bankrupt or to make assignment for the benefit of creditors, or to become insolvent.

- B. Should LESSOR be in default with respect to fulfillment of Lease obligations, LESSEE may give LESSOR notice of default and LESSOR shall have fifteen (15) days after receipt of notice to cure the default. Upon failure to cure default, LESSEE may, as its sole remedy, elect to cancel this Lease as to the affected Parcel.
- C. In the event LESSOR or LESSEE waives default by the other party, such waiver shall not be constitued or deemed to be a continuing waiver of any subsequent breach or default on the part of either party.
- D. All notices and demands shall be in writing and shall be mailed, certified or registered, to the addresses shown first above.

17. ASSIGNMENT OR SUBLEASE:

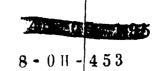

LESSEE covenants and agrees that it will not sublet all, or any portion of the Leased Premises, nor assign its interest, or any part of its interest, under this Lease as to the same without first obtaining written consent of LESSOR provided, however, that LESSOR does herein give its consent to subleasing for use purposes defined in Paragraph 3 herein.

18. SHORT FORM LEASE:

If requested by LESSOR or LESSEE, a short form Memorandum of Lease shall be executed and it is agreed that the short form Lease may be placed of public record.

19. INTERPRETATION:

A. This Lease is to be governed by the Laws of Ohio.

B. This Lease is not to be construed as establishing any rights, in the nature of third party beneficiary rights or otherwise, in any lessor of any lease to which LESSOR is a party or to any other third party.

- C. This Lease is to be construed as a "net-net" lease designed to generate a net return to LESSOR of the full rents called for herein, without deductions, costs or expenses, or capital outlays of any kind.
- 20. This Lease and Agreement shall be binding upon and inure to the benefit of the parties, their respective successors and assigns.

IN WITNESS WHEREOF, the parties have caused this Lease to be executed as of the day and year first above written.

REGISTRATION FOR UNDERGROUND STORAGE TANKS (UST)

FEE SCHEDULE

BUREAU OF UNDERGROUND STORAGE TANKS 6606 TUSSING RD - P.O. BOX 687 REYNOLDSBURG, OHIO 43068-9009 1989: \$20.00 1991 - 1998: \$25.00 1999 - CURRENT: \$50.00 PER TANK

NEW

AMENDED

CHANGE IN OWNERSHIP ANNUAL RENEWAL (CIRCLE ONE)

Conditions Requiring Registration of an UST

- Administrative Code Section 1301:7-9-04(D) requires that any person to whom ownership of any UST is transferred shall, within 30 days of the transfer, submit a transfer of UST registration application to the Fire Marshal for each location where an UST subject to the transfer is located. The transfer of ownership fee is \$50.00 per UST.
- 2. Any owner who installs an UST system shall, within thirty days of bringing such UST system into service, submit the registration application to the Fire Marshal along with appropriate fees.
- 3. If an UST system is installed at a location for which there is a current registration, the owner of the UST system must submit an amended registration along with the appropriate fees to the Fire Marshal within thirty days of bringing the system into service.
- 4. If an UST system was taken out of service after January 1, 1974, not in compliance with the Ohio Fire Code, the tank must be registered.

Tank Registration Application Fee:

Each tank registration application must be accompanied by a fee made payable to: "Treasurer, State of Ohio".

NOTE: Federal, State and political subdivisions are exempt from paying the fee but they must comply with all other requirements of the underground tank registration rule, including the completion of this form.

When Can A Tank Registration Be Denied?

The State Fire Marshal shall deny a tank registration for the following reason:

- 1. The application does not provide all the information indicated on the prescribed form.
- 2. The owner did not submit the tank registration fee required.

Exempt USTs

- 1. Farm and residential tanks holding 1,100 gallons or less of motor fuel used for non-commercial purposes.
- 2. Tanks storing heating oil and kerosene for consumptive use on the premises where stored.
- 3. Underground storage tanks holding 110 gallons or less.
- 4. Septic tanks and systems for collecting storm water and wastewater.

<u>Penalties</u>

Any person who knowingly fails to register or submits false information may be subject to a civil penalty not to exceed \$10,000.00 for each day the registration is late or for which false information is submitted. Any person who knowingly fails to register or submits false information may be subject to conviction of an unclassified felony with a maximum fine of \$25,000.00 and maximum imprisonment of 14 months.

REGISTRATION FOR UNDERGROUND STORAGE TANKS (UST)

FEE SCHEDULE

BUREAU OF UNDERGROUND STORAGE TANKS 6606 TUSSING RD - P.O. BOX 687 REYNOLDSBURG, OHIO 43068-9009 1989: \$20.00 1991 - 1998: \$25.00 1999 - CURRENT: \$50.00 PER TANK

NEW

AMENDED

CHANGE IN OWNERSHIP ANNUAL RENEWAL (CIRCLE ONE)

Conditions Requiring Registration of an UST

- Administrative Code Section 1301:7-9-04(D) requires that any person to whom ownership of any UST is transferred shall, within 30 days of the transfer, submit a transfer of UST registration application to the Fire Marshal for each location where an UST subject to the transfer is located. The transfer of ownership fee is \$50.00 per UST.
- 2. Any owner who installs an UST system shall, within thirty days of bringing such UST system into service, submit the registration application to the Fire Marshal along with appropriate fees.
- 3. If an UST system is installed at a location for which there is a current registration, the owner of the UST system must submit an amended registration along with the appropriate fees to the Fire Marshal within thirty days of bringing the system into service.
- 4. If an UST system was taken out of service after January 1, 1974, not in compliance with the Ohio Fire Code, the tank must be registered.

Tank Registration Application Fee:

Each tank registration application must be accompanied by a fee made payable to: "Treasurer, State of Ohio".

<u>NOTE</u>: Federal, State and political subdivisions are exempt from paying the fee but they must comply with all other requirements of the underground tank registration rule, including the completion of this form.

When Can A Tank Registration Be Denied?

The State Fire Marshal shall deny a tank registration for the following reason:

- 1. The application does not provide all the information indicated on the prescribed form.
- The owner did not submit the tank registration fee required.

Exempt USTs

- Farm and residential tanks holding 1,100 gallons or less of motor fuel used for non-commercial purposes.
- 2. Tanks storing heating oil and kerosene for consumptive use on the premises where stored.
- 3. Underground storage tanks holding 110 gallons or less.
- 4. Septic tanks and systems for collecting storm water and wastewater.

Penalties

Any person who knowingly fails to register or submits false information may be subject to a civil penalty not to exceed \$10,000.00 for each day the registration is late or for which false information is submitted. Any person who knowingly fails to register or submits false information may be subject to conviction of an unclassified felony with a maximum fine of \$25,000.00 and maximum imprisonment of 14 months.

REGISTRATION FOR UNDERGROUND STORAGE TANKS (UST)

FEE SCHEDULE

BUREAU OF UNDERGROUND STORAGE TANKS 6606 TUSSING RD - P.O. BOX 687 REYNOLDSBURG, OHIO 43068-9009

1989: \$20.00 1991 - 1998: \$25.00 1999 - CURRENT: \$50.00 PER TANK

NEW

AMENDED

CHANGE IN OWNERSHIP ANNUAL RENEWAL (CIRCLE ONE)

Conditions Requiring Registration of an UST

- Administrative Code Section 1301:7-9-04(D) requires that any person to whom ownership of any UST is transferred shall, within 30 days of the transfer, submit a transfer of UST registration application to the Fire Marshal for each location where an UST subject to the transfer is located. The transfer of ownership fee is \$50.00 per UST.
- 2. Any owner who installs an UST system shall, within thirty days of bringing such UST system into service, submit the registration application to the Fire Marshal along with appropriate fees.
- 3. If an UST system is installed at a location for which there is a current registration, the owner of the UST system must submit an amended registration along with the appropriate fees to the Fire Marshal within thirty days of bringing the system into service,
- 4. If an UST system was taken out of service after January 1, 1974, not in compliance with the Ohio Fire Code, the tank must be registered.

Tank Registration Application Fee:

Each tank registration application must be accompanied by a fee made payable to: "Treasurer, State of Ohio".

NOTE: Federal, State and political subdivisions are exempt from paying the fee but they must comply with all other requirements of the underground tank registration rule, including the completion of this form.

When Can A Tank Registration Be Denied?

The State Fire Marshal shall deny a tank registration for the following reason:

- 1. The application does not provide all the information indicated on the prescribed form.
- 2. The owner did not submit the tank registration fee required.

Exempt USTs

- Farm and residential tanks holding 1,100 gallons or less of motor fuel used for non-commercial purposes.
- 2. Tanks storing heating oil and kerosene for consumptive use on the premises where stored.
- Underground storage tanks holding 110 gallons or less.
- 4. Septic tanks and systems for collecting storm water and wastewater.

<u>Penalties</u>

Any person who knowingly fails to register or submits false information may be subject to a civil penalty not to exceed \$10,000.00 for each day the registration is late or for which false information is submitted. Any person who knowingly fails to register or submits false information may be subject to conviction of an unclassified felony with a maximum fine of \$25,000.00 and maximum imprisonment of 14 months.

REGISTRATION FOR UNDERGROUND STORAGE TANKS (UST)

FEE SCHEDULE

BUREAU OF UNDERGROUND STORAGE TANKS 6606 TUSSING RD - P.O. BOX 687 REYNOLDSBURG, OHIO 43068-9009 1989; \$20.00 1991 - 1998; \$25.00 1999 - CURRENT: \$50.00 PER TANK

NEW

AMENDED

CHANGE IN OWNERSHIP ANNUAL RENEWAL (CIRCLE ONE)

Conditions Requiring Registration of an UST

- Administrative Code Section 1301:7-9-04(D) requires that any person to whom ownership of any UST is transferred shall, within 30 days of the transfer, submit a transfer of UST registration application to the Fire Marshal for each location where an UST subject to the transfer is located. The transfer of ownership fee is \$50.00 per UST.
- 2. Any owner who installs an UST system shall, within thirty days of bringing such UST system into service, submit the registration application to the Fire Marshal along with appropriate fees.
- 3. If an UST system is installed at a location for which there is a current registration, the owner of the UST system must submit an amended registration along with the appropriate fees to the Fire Marshal within thirty days of bringing the system into service.
- 4. If an UST system was taken out of service after January 1, 1974, not in compliance with the Ohio Fire Code, the tank must be registered.

Tank Registration Application Fee:

Each tank registration application must be accompanied by a fee made payable to: "Treasurer, State of Ohio".

<u>NOTE</u>: Federal, State and political subdivisions are exempt from paying the fee but they must comply with all other requirements of the underground tank registration rule, including the completion of this form.

When Can A Tank Registration Be Denied?

The State Fire Marshal shall deny a tank registration for the following reason:

- 1. The application does not provide all the information indicated on the prescribed form.
- 2. The owner did not submit the tank registration fee required.

Exempt USTs

- 1. Farm and residential tanks holding 1,100 gallons or less of motor fuel used for non-commercial purposes.
- 2. Tanks storing heating oil and kerosene for consumptive use on the premises where stored.
- 3. Underground storage tanks holding 110 gallons or less.
- 4. Septic tanks and systems for collecting storm water and wastewater.

Penalties

Any person who knowingly fails to register or submits false information may be subject to a civil penalty not to exceed \$10,000.00 for each day the registration is late or for which false information is submitted. Any person who knowingly fails to register or submits false information may be subject to conviction of an unclassified felony with a maximum fine of \$25,000.00 and maximum imprisonment of 14 months.

Dear Sir or Madam:

Please find enclosed an invoice for the Miami County emission fees for 2005. Sources which emit air pollution are charged based upon their level of emissions. Your emissions/category is listed on the invoice.

This fee was enacted in 1983 and revised in 2001 by the Miami County Health District to provide adequate funds for air pollution inspection services in Miami County.

If you have any questions regarding this invoice, please call me at (937) 225-5939.

RECEIVED

MAR 1 1 2011

SPEEDWAY LLC

March 10, 2011

Dear Sir or Madam:

Please find enclosed the annual invoice for the Miami County emission fees for 2010. Sources which emit air pollution are charged based upon their level of emissions. Your emissions/category is listed on the invoice. We ask that you please remit payment before April 11, 2011.

This fee was enacted in 1983 and revised in 2010 by an agreement between the Miami County Health District and the Regional Air Pollution Control Agency to provide adequate funds for air pollution inspection services in Miami County, Ohio. The annual fee covers services provided during the previous year.

You may contact Jefferis Canan at 937-225-4435 regarding any questions surrounding the agreement with Miami County, or please call me at the phone number above for questions surrounding this invoice.

Sincerely,

Casie Lord

Re:

Air Reporting Emissions Reporting Forms
Speedway SuperAmerica LLC (SSA) Stores

Dear Sir or Madam:

Enclosed please find the completed Air Emission Reporting Requirement forms in connection with the 2002-2003 Non-Title V fees for all Speedway SuperAmerica LLC (SSA) Stores in Ohio.

If you have any questions don't hesitate to contact me at (937) 863-6507. Thank you for your time and attention in this matter.

Sincerely,

Alicia Davenport Permits Coordinator

j. A Process or Activity Flow Diagram must be submitted for each emissions unit included in the application. Include the OEPA Emission Unit ID and company identification for the emissions unit on each process or activity flow diagram submitted. Show entry and exit points of all raw materials, intermediate products, by-products and finished products. Label all materials, including air

If a claim is being made, attach a separate piece of paper to this application and include the following information to justify the claim:

- i. identification of the specific information (item # and description) submitted within the application for the emissions unit which is being claimed as a trade secret;
- ii. an explanation of why the information specified is indeed a trade secret;
- iii. confirmation that the alleged trade secret is not revealed by inspection or analysis of any marketed product (example: "reverse chemistry"); and
- iv. identification of security measures which have been adopted to ensure secrecy, and confirmation that reasonable or enforceable agreements or other confidential relationships prohibiting use or disclosure of the secret existed with those whom the secret was revealed (example: employee secrecy agreements and/or contractor agreements).

Finally, if a confidentiality claim is being submitted, two copies of the application need to be submitted, one completed version with all the information requested and one "sanitized" version containing all information requested except that information upon which a trade secret claim is being made.

n. Emissions Activity Category Forms:

The appropriate Emissions Activity Category (EAC) form(s) must be completed and attached for each emission unit. At least one complete EAC form must be submitted for each emission unit for the application to be considered complete. Please identify each EAC form completed and being submitted with this application for this emissions unit:

EA	C form ID number	(see instructions	for list of EAC forms)

FACILITY ID:	

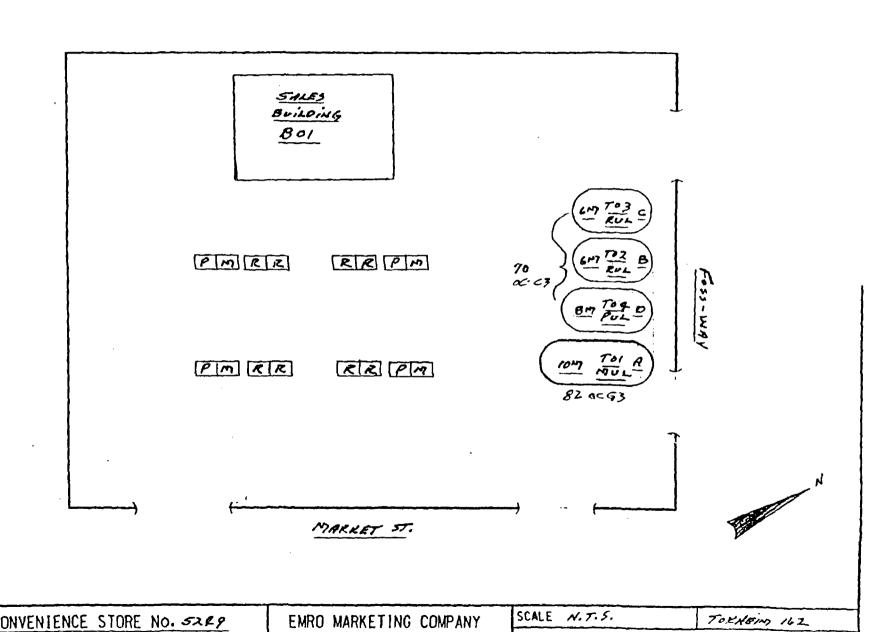

EMISSIONS ACTIVITY CATEGORY FORM GASOLINE, DIESEL, AND/OR KEROSENE DISPENSING FACILITY OEPA EMISSIONS UNIT ID <u>0855140 468</u> (if established)

1. Complete the table below for all tanks that store gasoline, diesel, or kerosene to be dispensed into motor vehicles and/or portable containers. See item (4) for additional information on the types of vapor control systems for tank filling. Also, any tank that stores used lubricating oil is to be included in the table below.

Tank ID	Tank Capacity (gallons)	Date Installed (mo/yr)	Material Stored (gasoline) (kerosene) (diesel) (used oil)	Type of Vapor Control System for Tank Filling (none, VB-1, VB-2, or other)	Fill Pipe Within 6 inches of Tank Bottom (yes or no)
A	10000	1982	Gasoline	16-2	Ves
\mathcal{B}	6.000	1970	Gersdine	VB-2	Ves
· · ·	6,000	1970		VB-2	yes
0	200	1970	Gasoline Gasoline	VB-2	yes
			.*		
					,,

2 .	Provide the number of dispensing nozzles for each petroleum product:	
	If a vapor control system is employed for gasoline motor vehicle refueling (Stage II), complete item (5) and mark an "X" here.	
3.	Provide the total gallons of petroleum products dispensed in each of the last two yearnew facility, provide an estimate of the maximum expected throughput for a full year	ars (if a).
	Year of $19\underline{9}\underline{6}$ Year of $19\underline{9}\underline{5}$	

6.	Exe	mption from Stage II: If applying for an exemption from the State II vapor control sirements based on average gasoline throughput per month, please complete this item.
	8.	Average gallons of gasoline per month: gallons/month*
		*Basis for gallons/month (check one):
		Based on average monthly sales from November 16, 1990 through November 15, 1992. The facility was not inactive during this two-year period.
		Based on average monthly sales for twenty-four months of activity. The facility was inactive during a portion of the two-year period from November 16, 1990 through November 15, 1992. (Attach summary on monthly sales.)
	b.	Claiming exemption for less than 10,000 gallons/month throughput: Yes No
	C.	Claiming exemption for less than 50,000 gallons/month throughput and status as an independent small business marketer: YesNo
7.		ependent Small Business Marketer: This item must be completed if claiming status as an ependent small business marketer.
	a.	The owner of the facility is a refiner: Yes No
	b.	The owner of the facility controls, is controlled by, or is under common control with a refiner: Yes No
	C.	The owner is otherwise directly or indirectly affiliated (as determined under the regulations of the U.S. Environmental Protection Agency) with a refiner or with a person who controls, is controlled by, or is under a common control with a refiner (unless the sole affiliation referred to herein is by means of a supply contract or an agreement or contract to use as a trademark, trade name, service mark, or other identifying symbol or name owned by such refiner or any such person): Yes No
	d.	The owner of the facility receives less than fifty percent of its annual income from refining or marketing of gasoline: Yes No
	if all i statu	four conditions of item (7) are answered "No", the owner of the gasoline dispensing facility can claims as an "independent small business marketer".
	(incli	E: The term "refiner" shall not include any refiner whose total refinery capacity uding the refinery capacity of any person who controls, is controlled by, or is under mon control with, such refiner) does not exceed sixty-five thousand barrels per day, and erm "control" of a corporation means ownership of more than fifty percent of its stock.

Re: PTI #08-04286, Facility ID # 0855140468 gasoline dispensing facility

Dear Mr. Helms:

This letter is to inform you that on April 27, 2001 this office received your application for a permit to install (PTI) for the above referenced air pollution source, and that I have been assigned to process your application. After our initial review, your application has been found to be preliminarily complete, therefore we can begin the technical review phase. This preliminary completeness determination does not imply that the application is approvable, only that we have enough information to continue the review. It does not allow construction, installation or modification of any air contaminant source (emissions unit).

Applications are generally reviewed on a first come, first serve basis. During the technical review, you may be contacted for additional information or for clarification. Once the review is complete, a PTI recommendation will be prepared either approving or denying the application (if review indicates a denial, you will be contacted to discuss options). The recommendation will then be forwarded to the Ohio EPA, Division of Air Pollution Control (DAPC), Central Office. It is possible they may ask for clarifying information as well before proceeding to issue either a draft permit, a direct final permit, or a denial of the application.

We estimate that review of your application will be completed and a recommendation forwarded to the Central Office, DAPC in approximately 45 days, provided the application is found to be technically complete and no additional information is needed.

Please be assured that we will do everything possible to process your application in a timely manner. If you have any questions concerning this letter or your application, please contact me at 937-225-5924.

Subject: Revocation of Permits for Speedway SuperAmerica #5249, 0855140468

Permit to-Install 08-04286 issued 6/14/01

Permit-to-Operate for Emission Unit(s) G001 issued on 9/26/01

Dear Ms. Stanaway:

I have received your 6/23/06 letter concerning request for revocation for cause of the permits listed above, pursuant to OAC rule 3745-31-07 and 3745-35-02. The facility is located at 818 N. Market Street, Troy, Ohio 45373.

Your request indicates that the operations listed below that are currently permitted under PTI 08-04286 and PTO issued 9/26/01 is/are eligible for revocation for cause Pursuant to Permit by Rule OAC 3745-31-03(A)(4)(i) pursuant to OAC rule 3745-31-07 and OAC rule 3745-35-02.

Emissions Unit ID	Emissions Unit Description	Basis for Revocation
G001	Gasoline Dispensing Facility	OAC 3745-31-03(A)(4)(i) Permit by Rule

OAC rule 3745-31-07 and OAC rule 3745-35-02 allow the director of Ohio EPA to revoke a PTI and PTO for cause if the director determines that granting the requested revocation will not result in the violation of any applicable laws.

PTI 08-04286 is hereby revoked.

The PTO for Emissions Units G001 issued on 9/26/01 for facility ID# 0855140468 is hereby revoked.

This letter does not exempt Speedway SuperAmerica #5249 from compliance with any other applicable laws or regulations.

Speedway SuperAmerica #5249
Director's Letter Revoking PTI 08-04286
Page 2 of 2

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office. Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission 309 South Fourth Street, Room 222 Columbus, OH 43215

RE: UST Closure Form

Speedway Store #5249, 818 North Market Street, Troy, Ohio

ESE Project No. 480080

Dear Mr. Blanco:

Enclosed please find three copies of the completed Closure Form for the referenced site. A draft cover letter you may wish to send on your letterhead with the Closure Form was sent via e-mail on August 25, 2000.

In July 2000, four gasoline USTs, eight dispenser islands, and piping were removed. Soil samples were collected beneath each of the USTs, beneath seven of the dispenser islands, and every 20 feet along the piping trench. The dispenser island that was not sampled was located over the UST basin. All samples were screened for organic vapors. The two samples with the highest field screening result collected beneath the USTs were analyzed by Quality Laboratories for BTEX and MTBE. The sample with the highest field screening result that was collected beneath each dispenser island and the sample with the highest field screening result that was collected from each piping trench that was at least 20 feet long were also analyzed for BTEX and MTBE. None of the soil samples that were collected beneath the UST system components (USTs, piping, and dispenser islands) contained BTEX and MTBE at concentrations that exceed the most stringent closure action levels. Groundwater was not encountered during excavation activities.

Approximately 24 cubic yards of impacted soil from the east wall of the UST basin was segregated from other soil and fill material that was excavated during closure activities. The benzene concentration in the sample from this stockpile exceeded the re-use action level and consequently this stockpile was transported to the Petro Cell facility in Washington Court House. The BTEX and MTBE concentrations in the remaining soil that was excavated (750 cubic yards) did not exceed the re-use action levels and therefore, this material was used to backfill the excavations.

Based on the closure results, this site should qualify for "No Further Action" status.

Volume: SEE NOTE BELOW

NOTE: Product removed from the USTs and piping was combined with water from pressure cleaning the USTs and transported in a vacuum truck to Klor-Kleen. Combined total volume was 2,000 gallons.

The Petroleum Contaminated Soil (PCS) Form must be completed (See Closure Packet, call SFM/BUSTR, or visit our web site). The PCS laboratory data sheets must be attached to the PCS form.

(D) SAMPLE DATA

(I) Sample Collection Procedures
Sample Preservation: ice filled cooler

Sampling Equipment: single use disposable gloves

Sampling Methodologies: After USTs, piping, and dispensers were removed, samples were collected in duplicate from beneath both ends of each UST, beneath each dispenser island, and every 20 feet along the piping trench. One portion of each sample was placed into jar with a Teflon-lined lid and the other portion was placed into jar for field screening.

Continued	Yes	No
a) Was a disposable volumetric sampling device used? If "yes proceed to "e"		по
b) Were soil samples split into two components, one for field screening and one for laboratory analyses?	yes	
c) Was sample placed into clean glass jar with teflon-lined lid?	yes	
d) Was jar appropriately labeled?	yes	
e) Was water present in the excavation?		no
f) Was a water sample collected?		no
g) Was the water sample collected after the excavation was evacuated?		NA
h) Were decontamination procedures followed?	yes	

ii) Field Screening

Instrument Used: HNU 101 photoionization detector

Methodology Used: HNU was calibrated daily. The samples were allowed to warm for 10 minutes. The HNU probe was inserted into the sample jar and the maximum reading was recorded. Calibration Procedures: Calibration gas is 100 ppm isobutylene in air which is equivalent to 56 ppm benzene. Obtained reading of background conditions. Connected HNU to calibration gas and adjusted to read 56 ppm using "span" setting.

ppm using "span" setting. Calibration Date: July 25, 2000

(iii) A copy of the chain of custody must be attached to the laboratory data sheets as an appendix.

E) LABORATORY DATA

Lab Name: Quality Laboratories

Name of Laboratory Analyst: Marc Price

Address: 851 Mill Street, Hamilton, OH 45013

Date Samples Received by Lab: 7/25/00 (on-site)

Telephone #: 513-856-8378

Date Samples Analyzed by Lab: 7/25/00 and 7/28/00

Laboratory data sheets must be attached as an appendix.

(F) MISCELLANEOUS DATA

(i) Site Map

Site maps, drawn to scale, should be attached as an appendix. Maps should include property boundaries, street locations, UST cavity dimensions, above ground structures, UST systems, adjacent properties, sample locations, water wells within 2000 feet of the site, any utilities, and the locations of previously closed UST systems.

(ii) Native Soils Encountered: silty sand and gravel beneath USTs, silty clay or sandy clay beneath dispenser islands and beneath piping.

(iii) Visual Site Evaluation: No holes observed in the USTs.	
(iv) Certified Fire Safety Inspector	Certified Installer
Name: Jim Bowell	Name: Clyde Benny Gatliff
Company/FD: Troy Fire Department	ID#: 10-90-0417
Address: 19 East Race Street Troy, Ohio 45373	
Inspector ID#: Deligated authority, no ID # required	

(v) Copy of Permit

Must be attached as appendix.

All reports must be signed by the UST owner/operator. The owner/operator is responsible for ensuring all data is accurate, and the closure form is legible and complete.

iosure form is legible and complete.	<u> </u>	
Owner/Operator Signature:	Al III II AN ENSTRUCE	Date: - 100
Print Name:	SPEEDOWN STANDER	

Additional information, which clarifies closure activities, may be submitted as an appendix to the report.

GROUP III (C20-C34) Total Petroleum Hydrocarbons (TPH)*		5,000	20,000	40,000		

All values are in parts per million (ppm) *TPH saturation limit from OEPA/VAP.

Note: Soil action levels are the most conservative from all BUSTR Tier 1 tables in Rule 13.

Soil Pathways:

a: Ground Water Ingestion, b: Direct Contact, c: Soil to Drinking Water Leaching

ANALYTICAL METHODS

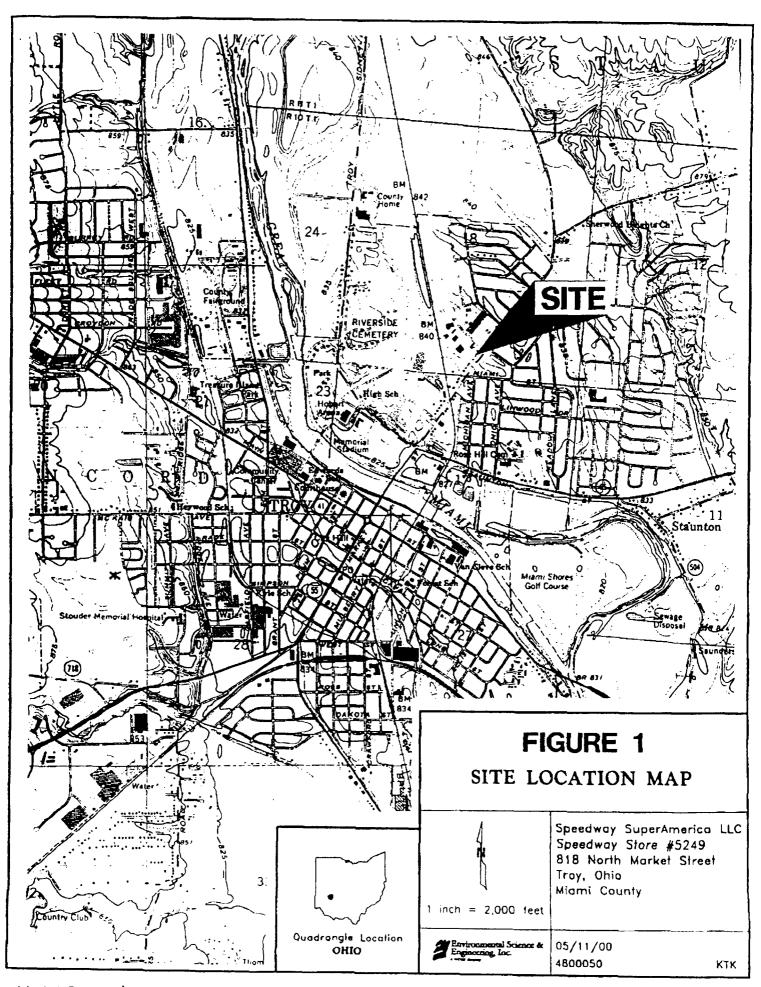

Analytical Group	Chemicals of Concern	Lab Methods for Soil	Lab Methods for Water	Soil Saturation Determination
(1) Light Distillates C4-C10	BTEX	8021* or 8260*	8021* or 8260*	Saturation Equation
(i.e. gasoline)	MTBE	8021* or 8260*	8021* or 8260*	
(2) Middle Distillates C10-C20	BTEX	8021* or 8260*	8021* or 8260*	TPH by 8015
(i.e. kero, diesel, stoddard)	PNAs	8270 or 8310	8270** or 8310 or 525.2	(C10-C34)
(3) Heavy Products C20-C34	BTEX, MTBE, VOCs	8260*	8260*	TPH by 8015
(i.e. used oil & unknowns)	PNAs	8270 or 8310	8270** or 8310 or 525.2	(C10-C34)

The gas chromatographic analysis of TPH may be stopped when all peaks have eluted. Laboratory must quantify the amount of TPH that falls in the diesel range (C10-C20) and in the oil range (C20-C34).

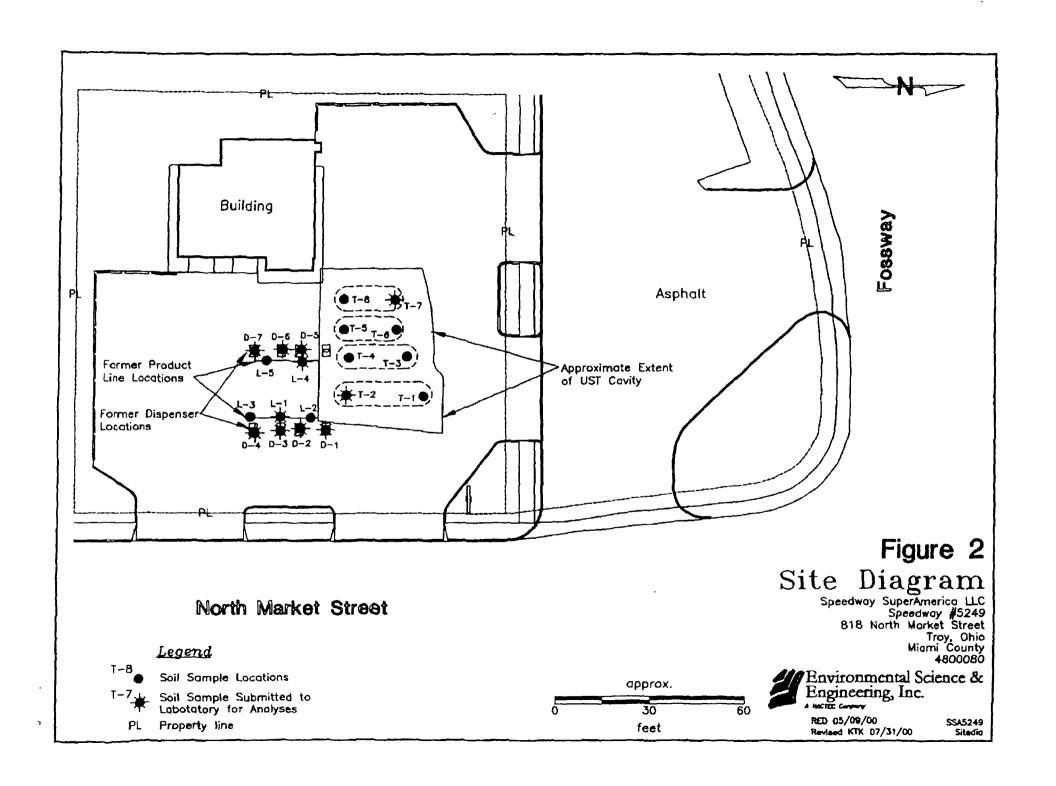

For method 8270, PNAs must be run for "base/neutral" petroleum components.

^{*}MTBE is not a target compound in these methods and must be requested.

^{**} A full liter of water may be required to obtain detection limits.

Mr. Julius Blanco Speedway SuperAmerica LLC. P.O. Box 1500 Springfield, OH 45501

RE:

Speedway #5249

Troy, OH

Dear Julius:

Petro Environmental Technologies, Inc. has received and initiated treatment on 30.45 tons of Petroleum Contaminated Soil (PCS) from Speedway #5249 in Troy, OH. These soils were accepted on manifest(s) numbered 50370.

Enclosed are the original manifest(s) and certified weight ticket(s), which were collected at the Petro Cell, and your invoice. Please remit payment within 30 days.

When confirmatory sampling verifies that your soil has reached non-regulated standards as defined by the Ohio EPA, you will receive a "Certificate of Soil Treatment and Compliance" This will eliminate your liability for the soil Copies of the confirmatory analytical results are on file and available upon request. Please call if you should have any questions Thank you for using the Petro Cell

Respectfully,

PETRO ENVIRONMENTAL TECHNOLOGIES, INC.

© WASTE DISPOSAL DATA

UST System Disposal Product Disposal Waste Water Disposal
Location Name: Rumpke Landfill Location Name: Klor-kleen Location Name: Klor-kleen
Address: 10795 Hughes Road Address: 3118 Spring Grove Ave.
City/State/Zip: Cincinnati, OH 45201 City/State/Zip: Cincinnati, OH 45225
Volume: 2,000 gallons Volume: SEE NOTE BELOW

NOTE: Product removed from the USTs and piping was combined with water from pressure cleaning the USTs and transported in a vacuum truck to Klor-Kleen. Combined total volume was 2,000 gallons.

The Petroleum Contaminated Soil (PCS) Form must be completed (See Closure Packet, call SFM/BUSTR, or visit our web site).

The PCS laboratory data sheets must be attached to the PCS form.

(D) SAMPLE DATA

(I) Sample Collection Procedures
Sample Preservation: ice filled cooler

Sampling Equipment: single use disposable gloves

Sampling Methodologies: After USTs, piping, and dispensers were removed, samples were collected in duplicate from beneath both ends of each UST, beneath each dispenser island, and every 20 feet along the piping trench. One portion of each sample was placed into jar with a Teflon-lined lid and the other portion was placed into jar for field screening.

Continued	Yes	No
a) Was a disposable volumetric sampling device used? If "yes proceed to "e"		по
b) Were soil samples split into two components, one for field screening and one for laboratory analyses?	yes	
c) Was sample placed into clean glass jar with teflon-lined lid?	yes	
d) Was jar appropriately labeled?	yes	
e) Was water present in the excavation?		no
f) Was a water sample collected?		no
g) Was the water sample collected after the excavation was evacuated?		NA
h) Were decontamination procedures followed?	yes	

ii) Field Screening

Instrument Used: HNU 101 photoionization detector

Methodology Used: HNU was calibrated daily. The samples were allowed to warm for 10 minutes. The HNU probe was inserted into the sample jar and the maximum reading was recorded. Calibration Procedures: Calibration gas is 100 ppm isobutylene in air which is equivalent to 56 ppm benzene. Obtained reading of background conditions. Connected HNU to calibration gas and adjusted to read 56 ppm using "span" setting.

ppm using "span" setting. Calibration Date: July 25, 2000

Name and Affiliation of Person Collecting Samples: Richard Cherico

(F) MISCELLANEOUS DATA

(i) Site Map

Site maps, drawn to scale, should be attached as an appendix. Maps should include property boundaries, street locations, UST cavity dimensions, above ground structures, UST systems, adjacent properties, sample locations, water wells within 2000 feet of the site, any utilities, and the locations of previously closed UST systems.

(ii) Native Soils Encountered: silty sand and gravel beneath USTs, silty clay or sandy clay beneath dispenser islands and beneath piping.

(iii) Visual Site Evaluation:	No holes observed in the USTs.					
(iv) Certified Fire Safety Inspec	ctor	Certified Installer				
Name: Jim Bowell		Name: Clyde Benny Gatliff				
Company/FD: Troy Fire Depart	ment	ID#: 10-90-0417				
Address: 19 East Race Street Tr	oy, Ohio 45373					
Inspector ID#: Deligated author	ity, no ID # required					

(v) Copy of Permit

Must be attached as appendix.

All reports must be signed by the UST owner/operator. The owner/operator is responsible for ensuring all data is accurate, and the closure form is legible and complete.

closure form is legible and comple	ete.	^		
Owner/Operator	Signature:	A NO EN SUPERIOR	Date:	_
Print Name:		JULIUS BUANCE SEEDMAN CHANNA		

Additional information, which clarifies closure activities, may be submitted as an appendix to the report.

All values are in parts per million (ppm) *TPH saturation limit from OEPA/VAP.

Note: Soil action levels are the most conservative from all BUSTR Tier 1 tables in Rule 13.

Soil Pathways:

a: Ground Water Ingestion, b: Direct Contact, c: Soil to Drinking Water Leaching

ANALYTICAL METHODS

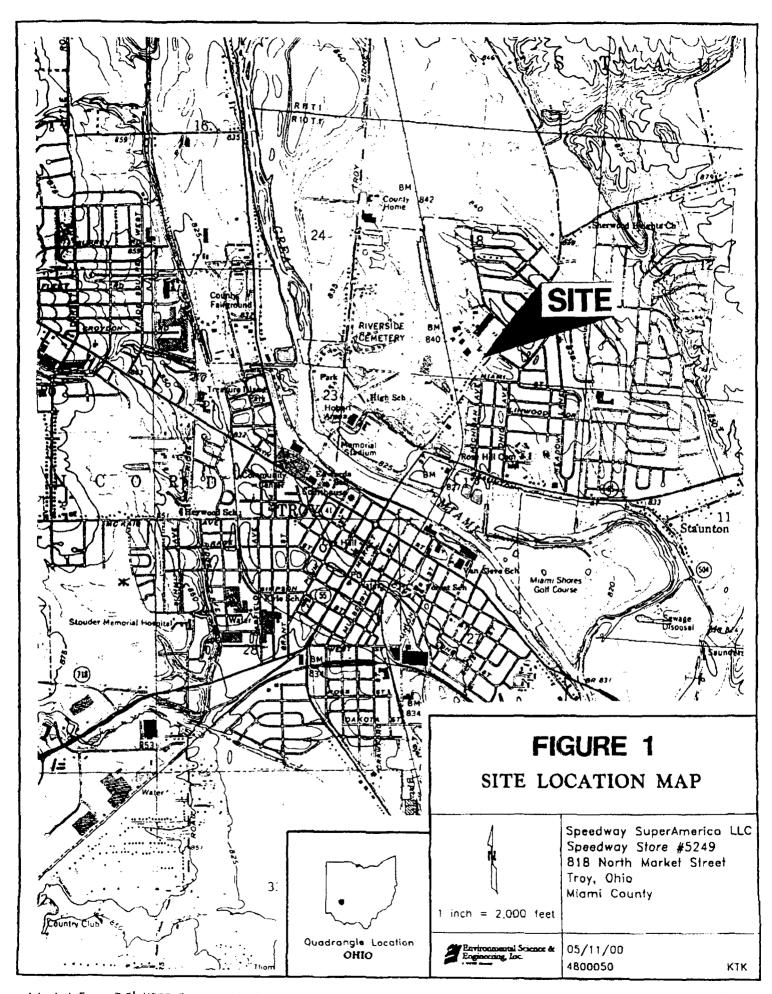

Analytical Group	Chemicals of Concern	Lab Methods for Soil	Lab Methods for Water	Soil Saturation Determination		
(1) Light Distillates C4-C10	BTEX	8021* or 8260*	8021* or 8260*	Saturation Equation		
(i.e. gasoline)	MTBE	8021* or 8260*	8021* or 8260*			
(2) Middle Distillates C10-C20	BTEX	8021* or 8260*	8021* or 8260*	TPH by 8015		
(i.e. kero, diesel, stoddard)	PNAs	8270 or 8310	8270** or 8310 or 525.2	(C10-C34)		
(3) Heavy Products C20-C34	BTEX, MTBE, VOCs	8260*	8260*	TPH by 8015		
(i.e. used oil & unknowns)	PNAs	8270 or 8310	8270** or 8310 or 525.2	(C10-C34)		

The gas chromatographic analysis of TPH may be stopped when all peaks have eluted. Laboratory must quantify the amount of TPH that falls in the diesei range (C10-C20) and in the oil range (C20-C34).

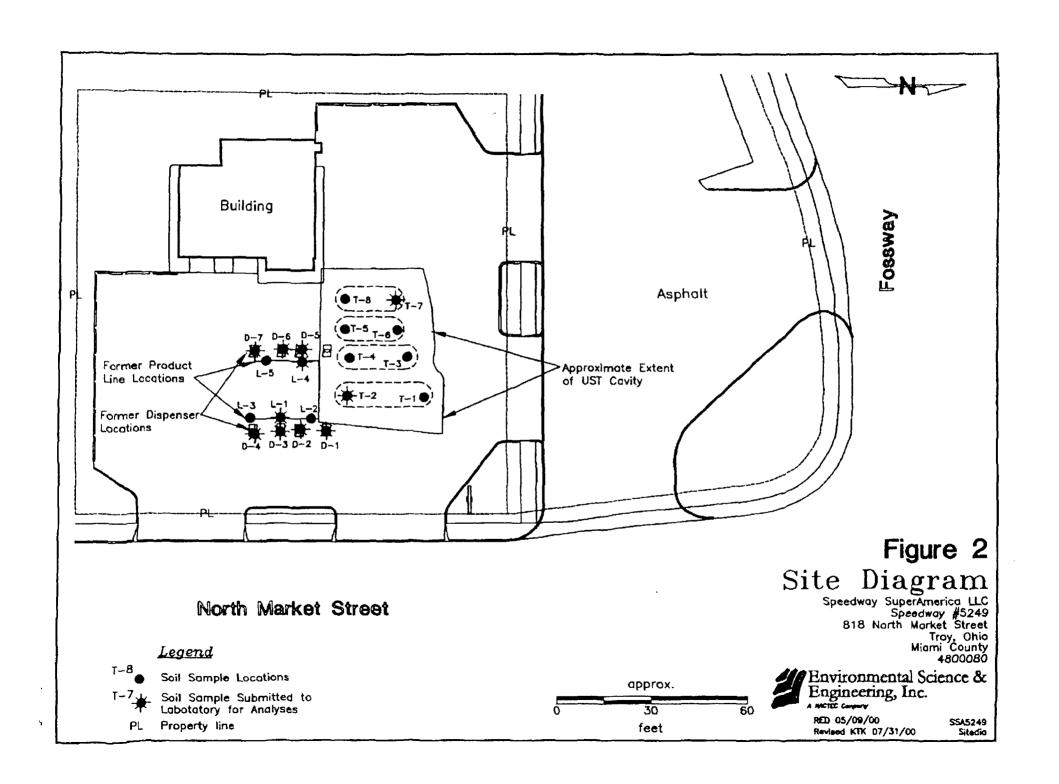

For method 8270, PNAs must be run for "base/neutral" petroleum components.

^{*}MTBE is not a target compound in these methods and must be requested.

^{**} A full liter of water may be required to obtain detection limits.

RE: UST

UST Closure Form

Speedway Store #5249, 818 North Market Street, Troy, Ohio

ESE Project No. 480080

Dear Mr. Blanco:

Enclosed please find three copies of the completed Closure Form for the referenced site. A draft cover letter you may wish to send on your letterhead with the Closure Form was sent via e-mail on August 25, 2000.

In July 2000, four gasoline USTs, eight dispenser islands, and piping were removed. Soil samples were collected beneath each of the USTs, beneath seven of the dispenser islands, and every 20 feet along the piping trench. The dispenser island that was not sampled was located over the UST basin. All samples were screened for organic vapors. The two samples with the highest field screening result collected beneath the USTs were analyzed by Quality Laboratories for BTEX and MTBE. The sample with the highest field screening result that was collected beneath each dispenser island and the sample with the highest field screening result that was collected from each piping trench that was at least 20 feet long were also analyzed for BTEX and MTBE. None of the soil samples that were collected beneath the UST system components (USTs, piping, and dispenser islands) contained BTEX and MTBE at concentrations that exceed the most stringent closure action levels. Groundwater was not encountered during excavation activities.

Approximately 24 cubic yards of impacted soil from the east wall of the UST basin was segregated from other soil and fill material that was excavated during closure activities. The benzene concentration in the sample from this stockpile exceeded the re-use action level and consequently this stockpile was transported to the Petro Cell facility in Washington Court House. The BTEX and MTBE concentrations in the remaining soil that was excavated (750 cubic yards) did not exceed the re-use action levels and therefore, this material was used to backfill the excavations.

Based on the closure results, this site should qualify for "No Further Action" status.

L400\480080L.001

Mr. Julius Blanco August 25, 2000 Page 2
